

Please make sure to read the enclosed Ninja® Owner's Guide prior to using your unit.

NINJA®

ESPRESSO & COFFEE

BARISTA SYSTEM

BREWING WITH CAPSULES

COMPATIBLE WITH NESPRESSO ORIGINAL CAPSULES*

For best results, use Nespresso®
branded original capsules.

NOTE: DO NOT
insert crushed or
damaged capsules.

Insert the capsule at the
correct orientation, as shown.

BEFORE THE FIRST BREW

1. Clean all accessories before your first brew.
2. Plug the brewer in and turn it on by pressing the power button.
3. Lift the water reservoir off of its base. Remove the reservoir lid. Add water up to, but not exceeding, the Full line. Return the water reservoir to the brewer. **DO NOT** fill the water reservoir with anything other than water, as other liquids may damage your brewer.

NOTE: We recommend using cool or room temperature water in the reservoir. **DO NOT** fill with hot or boiling water.

PRIMING THE CAPSULE SIDE

1. Ensure the lever is closed. **DO NOT** insert a capsule.
2. Center a vessel under the capsule brew outlet. Press the Capsule Button to select Lungo.
3. To start, press START. When the cycle is complete, discard the water and rinse the vessel. Repeat this process 3 times. You are now ready to brew capsules.
